

IN THE DRAWINGS

2004 NOV 23 PM 12:01  
The attached sheet of drawings includes changes to FIG. 3. This sheet replaces the original sheet of FIG. 3. The replacement sheet corrects the element number of the INSTRUMENTOR from "326" to "302". The specification properly refers to the instrumentor as element 302 (see, for example, page 21 of the specification).

Applicant notes that formal drawings were filed in this application on March 7, 2001, and that the Examiner has indicated on the Notice of Allowability mailed August 18, 2004 that these previously filed drawings are acceptable. Therefore, Applicant has not enclosed an entire set of formal drawings with this amendment. Only the Replacement Sheet is enclosed.
